#### **Terms of Reference**

### I. General Information

This document is being issued to solicit applications from a consulting firm with key technical expertise in providing event management services. Heifer Nigeria country office is looking for an experienced and registered company located in Abuja to manage the execution of an agtech event.

#### II. Background

#### About Heifer International

Heifer International is a global non-profit organization on a mission to end hunger and poverty in a sustainable way. Since 1944, Heifer International, through its work in 21 countries (in Africa, Asia, and the Americas), has supported more than 39 million people worldwide to end hunger and poverty sustainably, and millions more are now on a pathway to living incomes. Working with African rural communities for 48 years, Heifer International supports farmers and local food producers to strengthen local economies and build secure livelihoods that provide a living income. Heifer's foundation was built on the belief that ending hunger begins with giving people the means to feed themselves, generate income, and achieve sustainable livelihoods for their households. Heifer's global vision for 2020 - 2030 is to close the living income gap for an additional 10 million families. This vision is a focused approach for the African continent to support at least 6 million smallholder farmers in Africa to include Nigeria, to support at least two million households to achieve sustainable living income through (a) strategic private and public sector partnerships, (b) unlocking demand and market opportunities, (c) investing in priority value chains, and (d) leveraging innovation and emerging agricultural technologies to reach transformational scale. More information about Heifer is available at: <a href="https://www.heifer.org">www.heifer.org</a>

#### **Heifer Nigeria Country Program**

Heifer International established its Nigeria Country Program in 2021, and its Signature Program for Nigeria, named "Naija Unlock," was designed and launched. Naija Unlock program aims to support the unlocking of the potential in Nigeria's agricultural sector to achieve food self-sufficiency by working with smallholder farmers and local value

chain actors to increase their productivity to meet local demand for food and raw materials while closing the living income gap for families in the rice, tomato, and poultry value chains, with plans to add cattle, and small ruminant value chains. Naija Unlock is an evidence-based Signature Program designed to close the living income gap of smallholder farmers at scale with permanence of impact. The goal is to assist more than one million households in achieving sustainable living income by 2025 and scale to two million households by 2030 through strategic private and public sector partnerships to (a) build the social capital of smallholder farmers, (b) unlock farmers' access to innovative financing, (c) unlock demand and market opportunities, (d) increase farmers access to mechanization and emerging agricultural innovations, and (e) increase farmers knowledge and adoption of climate-smart agricultural practices. Naija Unlock program activities are currently being implemented in five (5) states in Nigeria (Ogun, Edo, Nasarawa, Benue, and Lagos States) with plans to scale to other states with the potential to make an impact at a transformational scale.

### III. Description of Expected Professional Services

### a. Background:

AYuTe, which stands for Agriculture, Youth, and Technology, is an enterprise development program initiated by Heifer International to identify, nurture, and support innovative, relevant and technology-driven agric-centric enterprises to grow, scale and thrive.

Through a regional AYuTe competition, Heifer International awards up to US\$1.5 million each year to leading growth-stage agritech innovators across Africa. Building on this regional competition, Heifer country offices in Nigeria, Ethiopia, Kenya, Rwanda, Senegal and Uganda organizes national AYuTe competitions that award up to \$40,000 in each country to start-up stage agritech innovators.

The AYuTe Africa Challenge Nigeria is an opportunity to identify young, creative entrepreneurs who have launched promising tech solutions that can address systemic constraints limiting the productivity and income of smallholder farmers in Nigeria.

Like the regional competition, the AYuTe National Champions competition offers prize money, capacity building, and mentorship, helping translate the energy and ideas of young Nigerian agritech innovators into meaningful impact for smallholder farmers, growth of the agricultural sector, and the country's food security.

The FY25 edition of the AYuTe Africa Challenge Nigeria is coming to an end with a planned Grand Finale on May 13, 2025. We are soliciting an experienced event management company to create a remarkable experience at the event.
