

HEIFER RANCH

CENTER FOR REGENERATIVE AGRICULTURE

TRAINING FARMERS. RESTORING LAND. STRENGTHENING COMMUNITIES.

Heifer Ranch is a 1,200-acre living laboratory and part of Heifer USA. Here, farmers, educators, and partners come together to build resilient food systems by putting regenerative principles into practice, improving ecosystems, strengthening the economy, and supporting communities.

HANDS-ON LEARNING

- **On-Site Training** — Half-day to multi-day sessions on cattle, sheep, swine, bees, poultry production and management.
- **Accredited Education in Holistic Management** — Training in holistic planned grazing, land planning, financial planning, and land health monitoring. (Savory Institute Hub)
- **Events & Convenings** — Opportunities to connect with other farmers, partners, and leaders shaping the future of food systems.

LEARNING ONLINE

- **Step-by-step** videos on regenerative practices.
- **Farmer-to-farmer** advice and success stories.
- **Free resources** available anytime, anywhere.

OUR GOALS

- **Ecosystem Health** — Restore soil, water, nutrient, and energy cycles
- **Farmer Success** — Improve profitability and quality of life
- **Animal Welfare** — Advance regenerative livestock practices
- **Stronger Food Systems** — Build and connect local and regional markets
- **Knowledge Sharing** — Share insights locally, nationally, and globally
- **Promote Holistic Management** — A common-sense approach to managing complexity.
